

Instruction Observation Notes

Date of observation:

Library instructor:

How did the library instructor introduce the session, and explain the goals and agenda?

How did the instructor connect the instruction to students' needs and experiences?

How did the instructor engage with the students and encourage participation?
(Examples could include: asking questions, moving around the classroom, verbal encouragement, positive body language, use of humor)

What materials and resources were used? (Slides, handouts, databases, videos, etc.) How did they help students achieve the goals of the session?

How did the instructor check for student learning and progress?

(Examples could include: observation of students, asking questions, checking in with students during work time, more formal activities like exit tickets, minute papers, surveys, etc.)

How did the instructor wrap up the session?

What do you think were the learning outcomes for the session?

What did you observe that you might use in your own teaching?
